

# Maxforce® FLY SPOT BAIT

## Product Sheet

**Maxforce® Fly Spot Bait** provides an unobtrusive and effective way to control house flies in commercial and residential structures such as non-food/non-feed areas of commercial food handling establishments, restaurants, dining areas, storage facilities, schools, hospitals, nursing homes, offices and buildings at marinas. Maxforce Fly Spot Bait may also be applied inside dumpsters and other waste containers.

Powerful attractants combined with *the active ingredient imidacloprid, which kills flies in 60 seconds or less.* This product provides immediate results with a long residual.
